DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/17/2006 has been entered.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Noffsinger (U.S. 4,647,039). Please refer to paragraph 1-24 of the office action dated March 1, 2005.

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
5. Claims 25-44 are rejected under 35 U.S.C. 103(a) as being unpatentable over Noffsinger alone. Please refer to paragraph 4 of the office action dated March 1, 2005.

Response to Arguments

6. Applicant's arguments filed 02/17/2006 have been fully considered but they are not persuasive. Please refer to paragraph 5 of the office action dated August 8, 2005. Applicant is attempting to place heavy emphasis on the phrase 'strongest range of motion', and attempting to give the phrase a narrow definition. Applicant misinterprets the principle that claims are interpreted in light of the specification. The words used in the claims were not defined in the specification to require these limitations. A reading of the specification provides no evidence to indicate that these limitations must be imported into the claims to give meaning to disputed terms. *Constant v. Advanced Micro-Devices Inc.*, 7 USPQ2d 1064. Claims are read in their broadest reasonable light, and phrases are given the broadest reasonable interpretation. Examiner further points out that the independent claims merely claim a support structure, engaging means, securing means, and a force measuring means. Noffsinger clearly meets the requirements of the claims.

Conclusion

7. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued

examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
